講義概要と目的

Students will build critical thinking skills through several types of exercises and discussions. They will also review basic English vocabulary and grammar in the beginning of the semester and learn advanced concepts towards the end. Writing prompts will encourage free expression as well as giving supporting evidence for said opinions.

到達目標

The goal of this class is to help students build confidence in their writing abilities, specifically in regards to self-expression. Practically speaking, they will be able to fill out their Monthly Reports that they will use during their study abroad or working holiday programs with a discernable amount of skill.
